

June-2021  
SSCI Special Protocols  
Operations Saskatoon Soccer Centre  
**OUTDOOR FIELDS ONLY**

### **Masks**

- Masks are no longer required on the field of play.
- Masks are required everywhere inside the building except when seated at the deck/pub as per restaurant guidelines.
- Masks are required in the dressing rooms.

### **Changing on the Field**

- We want to adjust the culture of players/refs fully changing on the field. There are too many cases of both men and women stripping down to their respective “unmentionables” before and after the game. There has been enough feedback to warrant making a change to this past practice.
- Please come dressed before the game so you do not have to “strip down” on the field.
- After the game: please use the dressing rooms provided.

### **Dressing Rooms / Showers**

- Due to half field games being played, we are short on rooms. Therefore, dressing rooms will only be available for players/refs AFTER the games on a first come, first serve basis.
- Again, these dressing rooms are available AFTER the games, not before.
- The dressing rooms are disinfected and cleaned as required between each use.
- Showers will not be available until further notice (Likely when all restrictions lift)
- You can lock the dressing room from the inside, which may help avoid interruptions, so please feel free to use this option.

### **Entrance/Exit**

- Like last year, we ask all adult players/refs to enter and exit using the far east/west gates to access A/B fields on both Kinsmen and the West Field. (No access at centre of the field)

### **Spectators**

- Spectators are welcome in our east and west designated area.
- As per government guidelines spectators NOT from the same household should maintain 2 meters distancing.

# Pleasure Way Pub Weekly Specials
